Current Program Series

The Program Planning Team put together a program series for the months of September through November called "The Cycle of Life." September will focus on the early years, childhood and young adulthood; basically birth through schooling. October will cover midlife, essentially the working years up to retirement/age 65 or thereabouts. And in November we will focus on the later years and end of life issues.

At this point we are planning to have programs in each month looking at Spiritual Development, Community Involvement and Economic Inequality during each of the stages of life. But there may be topics we find that are very appropriate to that stage of life but that don't quite fit into our neat little plan, so please be understanding. And if you have a suggestion for a topic that you think would be of interest to the Fellowship, especially if you know of someone in the community that can speak to that topic, don't be shy! Please let one of us know.

Thanks from the Program Planning Team:
